

Millstream House

Dedicated and Compassionate Care for adults living with Huntington's Disease

Millstream House is an established, well appointed and comfortable home from which we are proud to offer dedicated residential care services for up to 22 adults living with Huntington's Disease.

Easily accessible in Strood, Kent with south facing terraced gardens and views towards Rochester Cathedral and Castle, the home offers long and short-term person centred specialist care. Our focus is on supporting, empowering and enabling each of our residents to live their lives in accordance with their wishes.

Receiving on-going training and support from the Huntington's Disease Association our nursing lead staff team are compassionate, experienced, knowledgeable and committed to meeting the individual needs of each person in our care as they, their families and carers each face the challenges of Huntington's Disease.

Millstream House is at the heart of ILG's integrated pathway services for people living with Huntington's Disease.

For more information please contact ILG on 01276 418 000 or visit us at www.ilg.co.uk
